

WEBSITE FLOW DIAGRAM

1

HOME PAGE

The home page contains user-friendly interface that contains navigation options, about the TNP CELL NIT GOA, latest news and announcement section, brief overview of the top recruiting companies, tier - wise placement statistics reports, top alumni and a recruiter's read through section.

2

STUDENT LOGIN

Here the students are supposed to enter their login credentials, after which they will be navigated to a page containing the list of all the companies currently hiring on-campus. Clicking on the company name would display the tier of the package (if mentioned by the recruiter), the recruitment process details, eligibility criteria which if satisfied asks the student to register themselves and upload their CV. Student is also allowed to update their CV for an already registered company.

3

ADMIN LOGIN

This page is for the Admin of the website who is a member of the TNP CELL or the placement coordinator of the institute. The Website is secured by credentials which can be accessed by none other than the admin of the website. The admin will have access through to the details of students placed/ registered for each tier.

4

PREP CHECKLIST

Prepare your interview prep checklist according to the info provided in here and check your level of preparation. Be placement ready with online content and mock challenges. If you still feel you are not prepared enough know about and attend the upcoming informative workshops and training sessions.

5

KNOW THE RECRUITER

Get Contact and Recruitment process details of the top companies that are open for hiring but do not visit your campus. Get the insights of their working culture and find frequently asked interview questions. The motive of this page is to get the best out of off-campus placements as well.
